

# SensorScope™

The Safest and Most Effective System for  
Cleaning Your Digital SLR Image Sensor

4 Ultra Bright LEDs

5X Magnification  
Lens

Focused Light  
Technology

## SENSORSCOPE

The SensorScope is an innovative patent pending instrument that allows the photographer to look into the camera chamber and inspect the image sensor. This ultimate sensor inspection tool helps prevent unnecessary cleaning and accidental damage, making the cleaning process safer and more effective.

You need to clean your digital SLR sensor safely to ensure crystal clear images. The safest thing to do is NOT clean your sensor if it does not need it. Find out with SensorScope.

- 5x magnification with focused ultra bright light
  - Works on all digital SLRs
- Battery powered for portability
  - 2-year limited warranty

### How SensorScope Works

- 1) Fully charge your camera battery, set it to cleaning mode and remove your lens.
- 2) Place the SensorScope onto your lens mount, and press the power button to illuminate the sensor.
- 3) Look through the SensorScope and inspect your sensor for debris.
